

Governor Profile: Andrew Adamson

I became a Foundation Governor in May 2017 because my children attended St Mary's school, many years ago, and I felt it was time to give something back after they received such a good all-round education there.

For the last few years I have been helping with a careers initiative, organised by the Catenians, at two Catholic secondary schools in Slough. CV preparation and mock interviews help the students prepare for their next steps into the world of paid employment.

My professional life has been spent in electrical / electronic engineering; having served an apprenticeship with Rank Xerox I then spent some years in the Merchant Navy but most recently I was responsible for launching and supporting high speed electronic printing systems throughout Europe.

I have been the chairman of Maidenhead Sea Cadets for 17 years and since I retired this takes up a lot of my time.
