

Berj Tekerian Foundation Governor

I am Berj Tekerian, a Foundation Governor since April 2017. My son recently joined the school and is really enjoying himself! It was always my intention to become a governor at my son's school as I felt it important to use my time, effort and ability to make a difference for him and for all of the students in his school. I have been a teacher for nearly 18 years, to date, and have had many different roles within education as a result. I know that school and school life is a very important time in someone's life, and can be the best time. I am happy to be involved with St Mary's and hope to do all I can to support the school on its journey to 'Outstanding'.
