## What stops you from being to support your child's learning?

Answered: 64 Skipped: 26

Answer Choices	Responses
My other children/siblings	37.50% 24
Lack of time	51.56% 33
Work commitments	42.19% 27
Language barrier	4.69% 3
Too much homework	10.94% 7

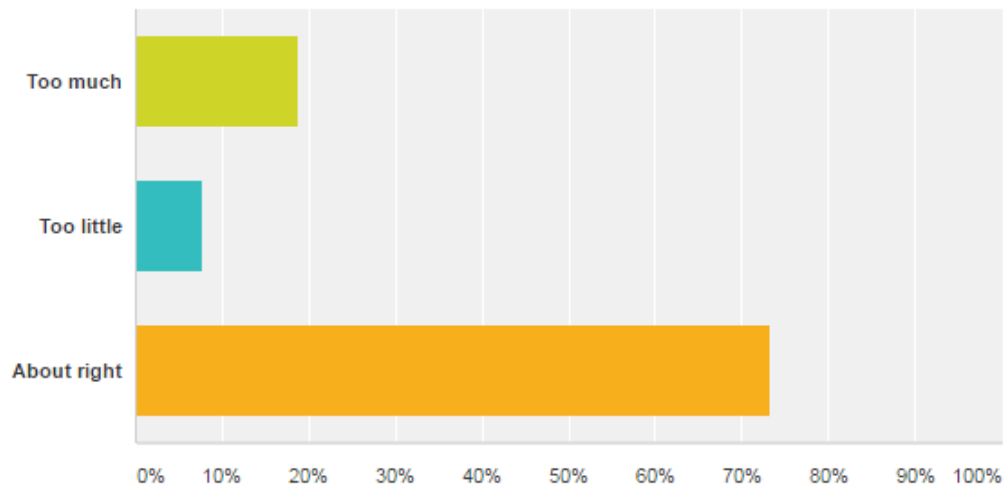

Total Respondents: 64

[Comments \(19\)](#)

Most comments indicate that, even if there are obstacles, nothing will stop the parents from supporting their children in learning as this is their number 1 priority.

## Do you think the level of homework is:

Answered: 90 Skipped: 0

Answer Choices	Responses
▼ Too much	18.89% 17
▼ Too little	7.78% 7
▼ About right	73.33% 66
Total	90

[Comments \(24\)](#)

**Suggestions are to have a homework club at lunch or after school.**

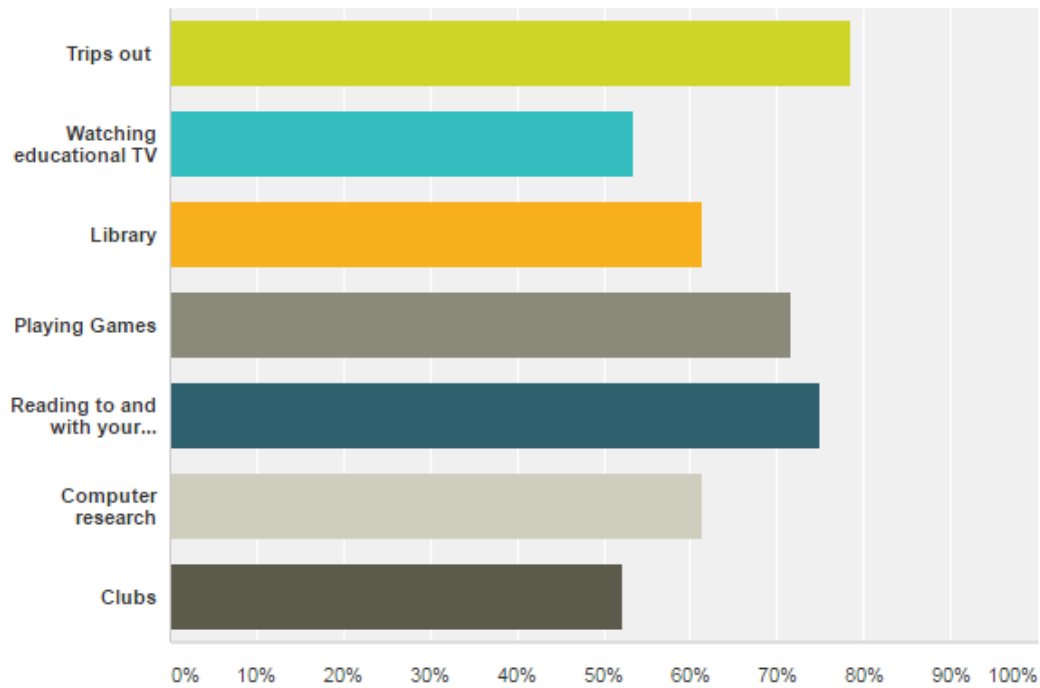

**Use more interactive computer/app based homework to make it interesting and engaging**

**Parents information for homework – tips on how it's taught in the class so this can be applied at home.**

## What extra curricular activities do you do to support your child's learning?

Answered: 88 Skipped: 2

Answer Choices	Responses

Always try to answer your child questions

3/10/2017 7:08 AM [View respondent's answers](#)

10 mins at a time is their attention span. From x a time that they are comfortable with but 'fix' it with them already.

3/8/2017 2:39 PM [View respondent's answers](#)

Be fair when it comes to your childrens education dont limit communication. Try to problem solve together to work out a way to give your kids easy access to contacting split parents if they need help in any subject or anything at all

3/1/2017 11:49 AM [View respondent's answers](#)

Let the child do the homework and help when needed

3/1/2017 5:21 AM [View respondent's answers](#)

Don't leave tillast minute and try and plan into weekend activites

2/28/2017 5:43 PM [View respondent's answers](#)

Be relaxed with your child, the more you push them the worse it. Make it fun and they will achieve in there own way.

2/22/2017 7:08 AM [View respondent's answers](#)

Commitment,learn how to prioritise

2/24/2017 10:35 PM [View respondent's answers](#)

I think parents should encourage their child to do a little extra. As clearly the school can only do a certain amount.

2/24/2017 12:46 PM [View respondent's answers](#)

I personally think doing the homework at the weekend works as the children are not so tired and are more interested/alert. As after a whole day at school its too much. Be patient!!! and introduce award system/treat for their hard work.

2/24/2017 12:25 PM [View respondent's answers](#)

Limit computer games to specific times eg: after homework is carried out or to set times throughout the day. They wont like you for it!

2/24/2017 9:48 AM [View respondent's answers](#)

Time with the children is in our daily schedule.

2/23/2017 11:35 PM [View respondent's answers](#)

find something they are interested in and by asking them what they've been learning about at school

2/23/2017 10:19 PM [View respondent's answers](#)

make a schedule for every day. Do homework first, and then play one hour game.and watch educate program on TV, reading hour before bedtime.

2/23/2017 9:44 PM [View respondent's answers](#)

Find a liitle time to spend with the child daily in your busy schedule.

2/23/2017 9:42 PM [View respondent's answers](#)

Read with the child as often as possible. Turn everyday activities into a learning exercise. E.g please can you share this out ewually between you and your brother/sister (helps them divide) etc

2/23/2017 8:51 PM [View respondent's answers](#)

have a routine

2/23/2017 8:43 PM [View respondent's answers](#)

be focused because if your not your children won't be

2/23/2017 5:40 PM [View respondent's answers](#)

No

2/23/2017 4:29 PM [View respondent's answers](#)

Little and often, make learning fun and part of a daily routine.

2/23/2017 3:53 PM [View respondent's answers](#)

Don't bombard them with too much at one time, lots of encouragement. Prize at the end of the week for good spelling quiz results.

2/23/2017 2:37 PM [View respondent's answers](#)

None

2/23/2017 2:18 PM [View respondent's answers](#)
