

Sports Premium Planned Spend 2015-2016

St Mary's has always been an active partner in the Ascot & Maidenhead Schools' Sports Partnership and we have increased our involvement this year to the Elite level. This will provide a PE specialist for one afternoon each week. Each class will have a full term of specialist teaching using the Real PE scheme and the teachers have support with developing the curriculum and extending planning. Teaching teams, individual and whole staff will attend training with specialist PE teachers both during and after school.

The Young Sports Ambassador programme has helped develop young sports leaders for the last three years and this is continuing. The children receive training and are enabled to lead sports activities and challenges beyond and within School.

A class has always taken part in the Dance Festival each February and this year we have places for two classes. A dance specialist will support the teachers by coming into School to help plan and choreograph a dance to music and the classes will then perform at the Festival.
